

Industry House Alternative Energy

"Social energy, as DuBois defines it, is the collective genius and cooperative spirit - the propelling actions and energy - that make a sociocultural system work."
- Jessica Gordon Nembhard

Members of the Alternative Energy IH promote alternative, renewable, non-pollution generating energy sources for our communities.

The goal in this house is to train the next generation of practitioners and ensure equitable access to alternative energy.

MEMBERS ARE SKILLED IN...

- Biomass/Biofuel
- Hydropower
- Interpersonal/Social Energy
- Off-Grid/Community Grids
- Geothermal
- Solar
- Wind

FACTS

1,000,000+

African Americans live within 0.5 miles of natural gas facilities AND face a "cancer risk above EPA's level of concern" due to unclean air.

More than 6.7 million African Americans live in the 91 US counties with oil refineries.

-Princeton PCIS (2020)
