

# Industry House Community Development

*When the roots are deep, there is no reason to fear the wind.*

## Join This House

**If you are a community builder passionate about developing dynamic, connected spaces and/or researching and sharing experiences in this field.**

**Community development is the heart of a self-sustaining community and can come in a variety of different forms. Members in this house discuss ways that a community can remain connected within and to its environment to ensure internal and external balance.**
