

# Industry House

## Sustainable Agriculture & Land Management

BSI Member Charles Greenlea | Eco-PARADIGM  
High Tunnel Construction

*"We're a land based people, so our survival is based on how we treat the land." - Charles Greenlea*

### Join This House

If you are interested in exchanging best practices on reparative & regenerative land practices.

Knowing how to feed yourself, your family and your community is a bedrock of a self-sustaining community. Members of this house ensure a healthy ecosystem for future generations by enabling communities to establish food systems, seed banks & produce local products independent of external sources.

### MEMBERS ARE SKILLED IN...

- Sustenance Farming/Homesteading
- Regenerative Agriculture/Permaculture
- Urban & Rural Farming
- Land Management Planning
- Food Systems & Sovereignty
- Heirs Property & Estate Planning
- Earth/Soil Health

### FACTS

<1%

African-Americans currently own US land; a nearly 90% loss since the 1920's  
-US Department of Agriculture

2.75%

Of Sub Saharan Africa is owned by African people.

-Rights and Resources Initiative
